*Summer 2016*

*Hands-on iPad & technology  
training for primary schools*

23<sup>rd</sup> June 2016:

## English, Maths, Science – Go Digital!

Discover simple yet effective ways to enhance your core teaching with iPads and Chromebooks. Use audio, still images and video to inspire students; make comic creation part of everyday learning; quiz whole classes of children with automatic collation and analysis of answers. Use Google Classroom's suite of tools to give children their own research and learning space, with work saved automatically, feedback given digitally, and access from home or school. You do not need to be technically minded to access and implement the tools and ideas explored on this day!

Venue: Mount Hawke Academy; 9:30 – 15:30

**Standard full day courses cost just £90\*, inclusive of lunch and refreshments.**

1<sup>st</sup> July 2016:

## Workflow, Speaking & Listening, Green Screening & Animation

Explore a range of apps that will inspire students and bring everyday learning to life.

- Use Seesaw to create easy digital workflow between teachers & children
- Use iPad as a teaching tool
- Speaking, listening and reasoning apps
- Simple but impressive green screening and animation techniques, with advice on video production and hosting

Venue: Penryn Academy; 9:30 – 15:30

---

*As primary school teaching specialists, our training is always practical and immediately useful within the classroom.*

---

FREE afternoon – 30<sup>th</sup> June 2016:

## FREE! iPad deployment and iOS 9.3

Dan Langridge from Western Computing takes you through the latest processes for deployment and management of iPads. To include the new education-specific features of iOS 9.3 such as Apple Classroom.

Venue: Mount Hawke Academy; 13:00 – 15:30

14<sup>th</sup> July 2016:

## Tapestry learning journals

Many EYFS settings are benefiting from the time and cost savings offered by online learning journals. This day focuses on using Tapestry, the popular and versatile solution that includes engagement with parents. Suitable for teachers / TAs, newcomers and intermediate users, the course covers various ways to gather and work with observations, manage journals, and adjust a Tapestry account to suit your particular setting. Analysis options that will help in the everyday running of your setting will also be covered, along with lots of Q & A.

Venue: Summercourt Academy; 9:30 – 15:30

7<sup>th</sup> July 2016:

## Tapestry – experienced users / end of year export (£45\* inc. refreshments)

A morning session for experienced Tapestry users who want to expand their knowledge of the system and export year-end documents. We will look at various Snapshot and Analysis screens, exporting documents for transition to KS1. Time will be devoted to creating finished journals for parents and solving any specific problems for your setting. To include the option of setting up Tapestry for the next academic year.

Venue: Mount Hawke Academy; 09:30 – 12:30
